- Operation voltage: 3.3V
- Power Supply: Rechargeable Li-ion battery

## **System Requirement:**

- Windows
- Mac OS
- Linux
- Android/Google/Smart TV

## How to use

### Start up

1. Open the battery cover, take the USB dongle out which is under the battery cover.

4. The connection is successful (slide your finger on touchpad you can see the cursor moving on the screen )

2. Plug USB dongle into any USB port of your device (Raspberry Pi/Smart TV /PC)

Power Switch

3. Turn the unit on by switching the power switch to on (the LED would be flashing then go out )

Charge your keyboard: when your keyboard  flashing all the time that means your keyboard is in low charge, and need to charge, Connect your keyboard to your computer with micro end of USB cable to your keyboard and another end to computer, then  will light up with steady on, and go out when it is fully charged.

To avoid the RF-signal blocked by TV metal case Please use the supplied extend USB cable

## FAQ

### 1. The computer can not recognize the USB receiver?

No reaction or unwanted disconnection with the keyboard. Please plug the USB receiver into the USB port in the computer and press 'FN' then 'RF' simultaneously on the keyboard (LED director will blink). The director will go off a few seconds later, which means the keyboard is paired with the computer then.

### 2. How to connect it with Smart TV/Raspberry Pi (Windows/Android System):

The same way as above one

### 3. Touchpad become unstable /insensitive or type the letter, they are stuck on the screen.

Charge battery for several hours.

### 4. No response or need to press several times from a long distance.

To avoid the RF-signal blocked by TV metal case. Please use the supplied extend USB cable

### 5. The multi media keys can't work

Update player version or install relevant driver. It's same with Logitech

Note: For Windows system, insert USB dongle, it would take minutes to install driver automatically.

## WEEE Directive & Product Disposal:

At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.

### Notice to customers

This symbol on the battery indicates that the battery is to be collected separately. The following applies only to users in European countries.

This battery is designed for separate collection at an appropriate collection point. Do not dispose of as household waste.

For more information, contact the retailer or local authorities in charge of waste management.

### Caution :

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
