5. FAQ

5.1 How can I turn on/off the backlit ?

Please keep pressing key “Fn” and then click the key “ Caps” to turn on/off the backlit

Note: The backlit will go off automatically when it go into sleep mode. Just click any key to wake it up.

5.2 Why I fail to connect this keyboard with fire tv stick

- (1) Please make sure the keyboard and Fire Stick is in effective range.
- (2) Please make sure the keyboard is not in low power.
- (3) Please make sure the keyboard and TV stick are both in searching status.

Note :

Please refer to our specifically written article about pairing Bluetooth keyboard with fire TV stick at

http://iPazzPort.com/en_article.asp?id=223

5.3 Why it fails to stay connected with fire stick

- (1) The keyboard may be not compatible with some APP or program due to patents
- (2) Not being used within 2 minutes ,it disconnects but reconnects once you use it again. Example: watching a movie on Netflix it shows disconnected and once the movie is done you press any button to reconnect the keyboard if you want to watch something new
- (3) Make sure the resource signal is strong enough
- (4) Make sure the keyboard is not in low power capacity
- (5) Make sure the keyboard is not being connected with some other Bluetooth devices around at the same time
- (6) Frequency interference always exists. Please put away obstacles or shut off other Bluetooth devices , or put the keyboard closer to the PC or TV.

5.4 How can I reconnect it with fire stick or other Bluetooth devices

- 1) Turn off and turn on the keyboard, it will reconnect with the fire stick automatically
- 2) Please refer to the tips in previous page if you have frequent disconnection issue during operation

5.5 Can this keyboard control multiple fire sticks ?

Yes, it is Bluetooth so it can connect to any fire stick, but it can control only one Fire Stick at same time.

5.6 Is it compatible with YouTube on fire TV stick?

No, this keyboard is not compatible with YouTube.

On YouTube Search bar, YouTube onscreen keyboard only support Arrow keys and the Enter key function to navigate, not allowing input; The Backspace key acts like a return key and takes to the previous page; The same issue with other keyboards in present market.
