## 1. Basic info

### 1.1 Product description

This model is designed especially for Fire TV Stick and Fire TV box as all of us knew, for such kind of TV BOX or TV Stick, the biggest complaint heard is "Hunt and peck" text entry by moving up/down arrow to select the letter, time consuming and confusing. Further more, this model comes with 8 IR learning buttons, with this feature this mini keyboard can also be used to control your TV, 2 in 1, convenient.

### 1.2 Bullet points:

- (1) QWERTY layout allows you to type smoothly and quickly
- (2) Detachable back silicon sleeve holds the original remote of Fire TV Stick together
- (3) 8 IR learning buttons control your TV by copying IR code from your TV remote.
- (4) With useful backlit for convenient operation in darkened room.
- (5) It's convenient. Use the Keyboard side for text entry, flip it over for convenient use of your existing remote control.
- (6) Can be used for fire TV stick, Fire TV and other devices with built-in Bluetooth.

### 1.3 Please note:

- 1) Fire stick remote is not included
- 2) It doesn't work with YouTube due to system incompatibility

## 2. Support system:

- Windows
- Mac OS
- Android / iOS OS
- Fire TV stick and Fire TV

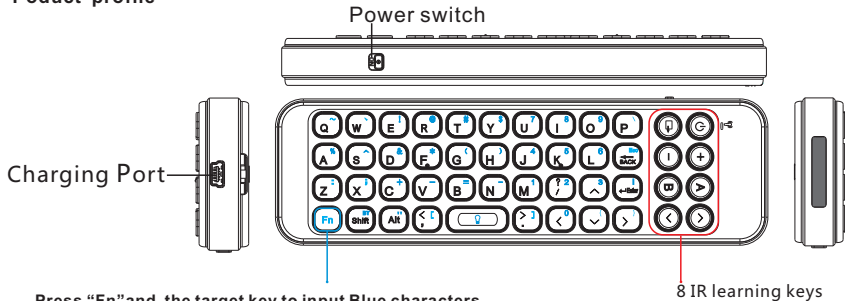

## 3. Specifications:

- Bluetooth connection
- Max distance: 10m
- Power Supply: li-ion battery
- Battery voltage: 3.7V
- Working voltage: 3.3V
- Physical Parameter :
  - Dimensions: 155X46X15mm
  - Weight: 71.5g

## 4. Packing list:

- Bluetooth keyboard 1
- User manual 1
- Charging cable 1

## Product profile

Press "Fn" and the target key to input Blue characters

Press "Fn" and "BT" to do pairing procedure

Press "Fn" and the spacebar (with a bulb icon) to turn on/off backlit

**IR learning: we now take your TV remote to show you how to learn IR code**

1. Turn on the keyboard and Hold the default "Power" button indicated below till the red LED flash then be steady on

2. Put mini keyboard and TV remote close and face the IR head of your TV remote towards to IR head of this mini keyboard, on this mini keyboard, click button "+", red LED will blink one time

3. On your TV remote. click "V+", red LED will flash 3 times then go out.

4. Repeat above steps to complete other buttons.

5. Click "Power" button to save the code.

Note: You can program these buttons one by one before the Red LED goes out.

### **Charge the keyboard**

Please charge the keyboard if the LED flashes quickly even without any operation on it. This means your keyboard voltage is in low charge and need to be charged.

Connect the keyboard to your computer or other power source of DC 5V with supplied USB cable.

### **Turn on/off the Backlit mode**

Please keep pressing key “Fn” and “ spacebar” (with a bulb icon on it) to turn on /off its backlit mode.

Note: To prolong the standby time, the backlit will go off when the keyboard go into auto sleep mode. Just one click on any key to wake it up.

### **Connect To Fire TV Stick or Fire TV**

- 1) Plug Fire Stick into TV
- 2) Turn keyboard on, long press FN and BT till LED flash (LED in the end of keyboard), that means keyboard is under searching mode
- 3) Please use original remote of Fire TV Stick, and follow the steps below to build connection.

- (1) Find “Settings”==> “ Controllers and Bluetooth Devices”==> “Bluetooth devices”

(3) Choose "Add Bluetooth Devices"

(4) Searching for Bluetooth Devices

(5) Click "iPazzPort Bluetooth" to pair it successfully

### **Connected it with other Bluetooth devices**

1. Activate Bluetooth function on your Bluetooth devices to search for other Bluetooth devices around.
2. Turn on the Bluetooth keyboard, and Press "Fn" and then "BT" together till the indicator blinks.
3. When your device find the Bluetooth keyboard, the keyboard icon will display on the interface.
4. Just click the icon to establish Bluetooth connection automatically.

#### Note:

- 1) The actual steps may be different due to the brands and models of the devices
- 2) **The included silicon sleeve is for Fire stick remote only .**

## FAQ

### 1. Why I fail to connect this keyboard with fire tv stick

- (1) Please make sure the keyboard and Fire Stick is in effective range.
- (2) Please make sure the keyboard is not in low power .
- (3) Please make sure the keyboard and TV stick are both in searching status.

Note :

Please refer to our specifically written article about pairing Bluetooth keyboard with fire TV stick at [http://ipazzport.com/en\\_article.asp?id=223](http://ipazzport.com/en_article.asp?id=223)

### 2. Why it fails to stay connected with fire stick

- (1) the keyboard may be not compatible with some APP or program due to patents

Note:

Please leave messages on social platform facebook, twitter @iPazzPortfans or email us at

- (2) Not being used within 2 minutes, it disconnects but reconnects once you use it again. Example: watching a movie on Netflix it shows disconnected and once the movie is done you press any button to reconnect the keyboard if you want to watch something new
- (3) Make sure the resource signal is strong enough
- (4) Make sure the keyboard is not in low power capacity
- (5) Make sure the keyboard is not being connected with

some other Bluetooth devices around at the same time

- (6) Frequency interference always exists. Please put away obstacles or shut off other Bluetooth devices , or put the keyboard closer to the PC or TV.

### 3. How can I reconnect it with fire stick or other Bluetooth devices

- (1) Turn off and turn on the keyboard , it will reconnect with the fire stick automatically.
- (2) Please refer to the tips in previous page if you have frequent disconnection issue during operation.

### 4. Can this device control multiple fire TV stick?

Yes, it is compatible with any Fire TV stick but can control only one Fire TV stick at one time

### 5. Is it compatible with YouTube on fire TV stick?

No, this keyboard is not compatible with YouTube. On YouTube Search bar, YouTube onscreen keyboard only support Arrow keys and the Enter key function to navigate, not allowing input; The Backspace key acts like a return key and takes to the previous page; The same issue with other keyboards in present market. Can this keyboard control multiple fire sticks ? can control only one Fire Stick at same time.

**Does it mean we can use this keyboard to replace my original Fire TV stick remote?**

Answer: This keyboard, is to control your Smart TV (Power on/off, change channels,etc), protect and makes your original remote effective in password input. That is to say, it can replace your remote if you are not a voice search function addict.

**Safety matters and maintenance :**

- 1)Don't drop this keyboard into water. Never expose it in the sunlight or near the fire .
- 2)Please turn off the keyboard in hospital, airport and gas station.
- 3)Never use it while driving .
- 4)Please charge the keyboard properly and timely
