**Smart TV Remote Control**

**Model: KP-810-51**

**Rev.1.0**

**1. Brief introduction:**

Thanks for buying our product, this 3 in 1 RC is designed for smart TV with double sides: one side is full keyboard design and the other side includes IR buttons for TV control, consisting of three functions: full keyboard, air mouse and IR remote controller.

-This double-sided keyboard remote of new model utilizes both RF 2.4G technology for keyboard and mouse control and IR technology for TV control.

Compared to traditional IR remote controller, this model is easy for end user to input letters and to find and open their favorite Apps for its hotkeys.

**2. Features:**

- 3 in 1: keyboard, mouse, and IR remote
- Slim size, fashion style
- Gyroscope for mouse control
- Rechargeable Li-ion battery power supply
- Low power consumption

**3. Main specifications:**

- Battery capacity: 380mA
- Power consumption: appro. 120uA
- Charge : DC 5V/300mA
- RF 2.4G connect, plug and play
- Wireless distance: 8 – 10M
- IR carry frequency: 38K Hz
- Working condition: RH 20%-85%@-20°C-35°C;
- Size: 160X46X10.2mm.
- weight: 100 g.

4. Product overview:

1. IR emitter

2. Mouse button: press to activate mouse function, when mouse is on, OK button will change to left click function of mouse

3. Signal indicator: LED 1: IR signal, LED2: RF signal, LED3: light on when charging

4. Power button,

5. USB port for charge: when charge, led3 will light on, and it will go out when RC fully charged.

6. keyboard and mouse of this RC use RF 2.4G technology, designed with Spanish key layout, is compatible with other Android smart TV, and Android STB.

## **5. How to use**

5.1 .Insert the USB receiver into the USB port of smart TV and power on RC by switching power button to on. Once connection is build, you can sit on your comfortable sofa to control your TV: watching your favourite program, surf internet, Text-chat with your friend...

5.2. Charge your RC: this RC is power supplied by rechargeable Li-ion battery, it is easy to charge, just connect the RC to your smart TV or any USB port of computer with the provided USB cable, then LED 3 will light on. when RC is full charged, LED 3 will go out.

5.3 Compared to common IR RC, this new RC is designed with full keyboard and usnig spanish key layout, covered most normal spanish symbols, on this RC, there are 4 ways to input these letters:

-basic letters, such as A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, Ñ, Ç, ... just tap one time

- Some letters with blue color need to use with key “Fn”, for example: to input “&”, you need to hold key “Fn” then press “K”,

- Some letters with red color need to use with key “AltGr”, total 4 symbol: {,},[,],€, for example, to input “€”, you need to hold key “AltGr”, then press key “E”

- some upper letter need to use with key Shift: total three symbol: ^, ", \*, for example, to input “\*”, you need to hold key Shift, then press key “+”

5.4 Mouse: click(not hold) button  to activate mouse function, then wave your hand, then mouse will move with your hand motion, when mouse is activated,

## Operation Instruction For Smart TV
